

2000mm Pantech / Angle Load / Gooseneck Roof

Model: B2000

Model: B2000
Width: 2000mm
Height: 250mm
Length: 4000mm

This Roof also can be used for Goosenecks, Truck bodies, Horse Boxes and Stock Crates. This narrower version provides a better turning circle with less wind drag. The Overall height is 240mm and all the corners are rounded to a 125mm radius.

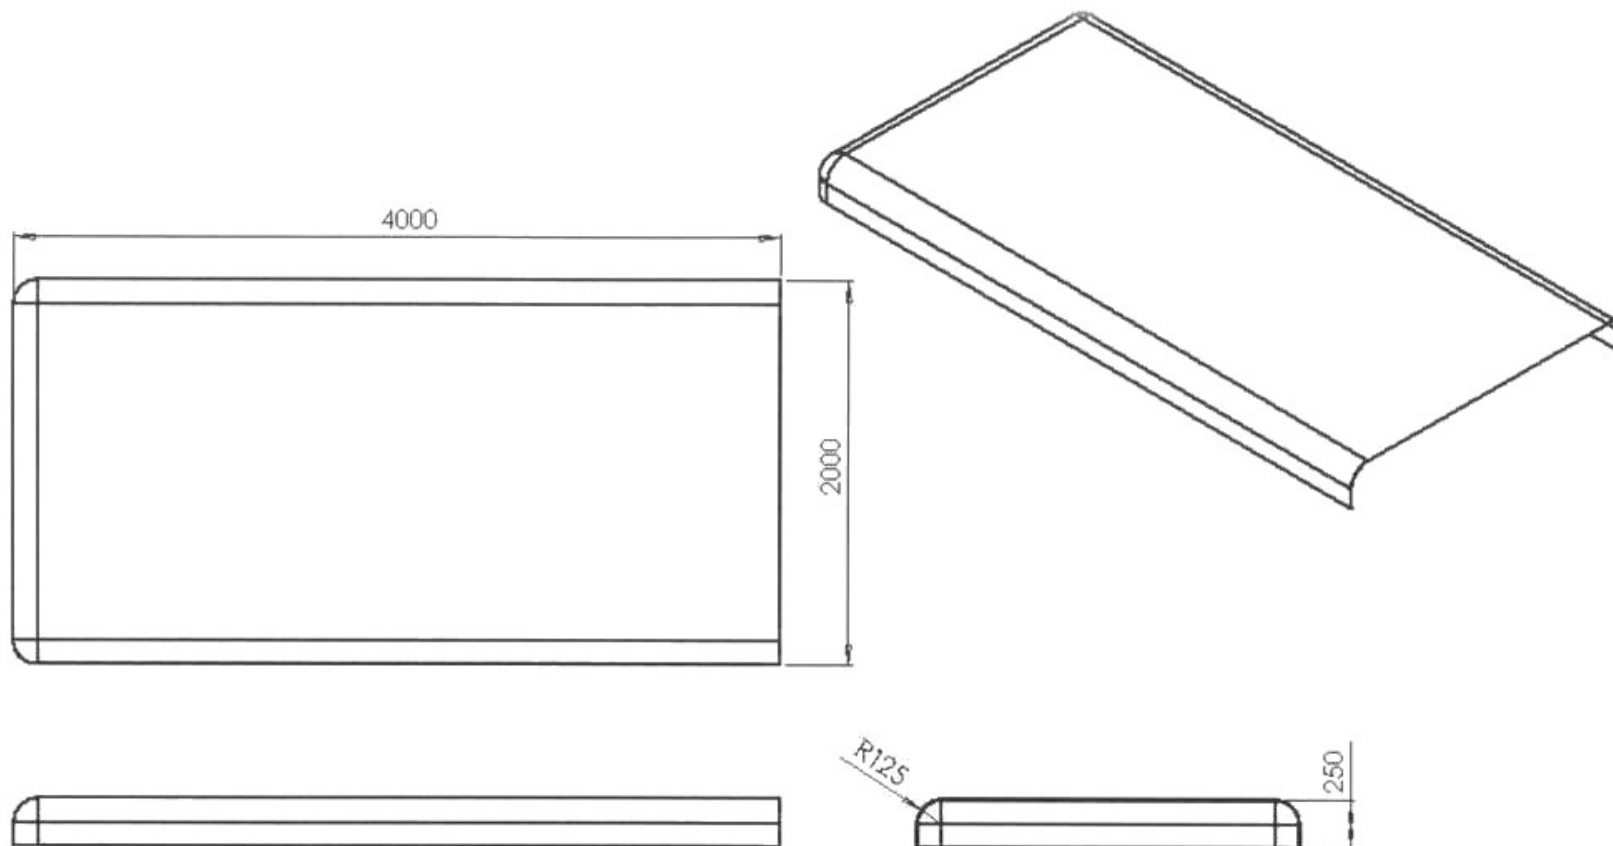

This roof can be supplied with the rolled front corners or without if it is needed to fit up close to a headboard. The mould length is 4 metres and can be extended to whatever you require.
